

# Sleepy Town

Music and Lyrics by Doug Carlson  
Copywrite 2016

Darkening clouds of anger near a sleepy neighborhood.  
Rings of fire are closing in of crimes misunderstood.  
Sirens scream and barking dogs make frantic children stare  
The jury set the killer free now they've come to take their share.  
And the lights from the helicopter are the lights for the TV screens  
Don't you dare let your kids go out there cause it's not Halloween.

In this sleepy town.  
WAKE UP!  
Take a look around.in the sleepy town.  
Just look around you.

Street gangs cheer as canons roar. A young policeman aims.  
Desperate man falls to the ground his world gone up in flames.  
Blood stained streets across the tracks a message written down.  
If we don't give the blood will flow through the streets of sleepy town.  
Like a hole where the head of an ostrich pretends that it just ain't there.  
While world rages on around him till there's panic in the air.

In this sleepy town.  
WAKE UP!  
Take a look around.in the sleepy town.  
Just look around you.

What happened to our sleepy town?  
The winds of change have come around.  
They fan the flames that burn it down  
What happened to our sleepy town?  
What happened to our sleepy town?

And the lights from the helicopter are the lights for the TV screens  
( *Lights are shining on the scene young man lying there* )  
Don't you dare let your kids go out there cause it's not Halloween.

In this sleepy town take a look around  
WAKE UP!  
In the sleepy town.  
WAKE UP!  
Take a look around.in the sleepy town.  
Just look around you.

What happened to our sleepy town?  
The winds of change have come around.  
They fan the flames that burn it down

What happened to our sleepy town?  
What happened to our sleepy town?
