

# WARM VALLEY NIGHTS

Words & Music by Doug Carlson Copyright 2013

Everybody feels alright playing in the summer night  
Don't need no clothes when the wind don't blow  
Not a sad child in sight, make us feel good tonight  
Make us feel good tonight on a warm valley night

There's gonna be a party on the farm, and everybody's comin'  
I'm gonna meet my friends where the river bends  
Gonna have fun tonight, make us feel good tonight  
Make us feel good tonight on a warm valley night

It gets so hot in the day  
And you almost melt away  
Can't wait 'till the sun goes down

Then life is good on a warm valley night  
And there we stood on a warm valley night

No one cares if it gets too loud  
We're gonna play 'till they shut us down  
Red eyed Johnny with a shit faced grin  
Make him feel good tonight, Gonna feel good tonight  
Make us feel good tonight on a warm valley night

It gets so hot in the day  
And you almost melt away  
Can't wait 'till the sun goes down

Then life is good  
(on a warm valley night )  
And there we stood  
(on a warm valley night)

Oh so fine  
(on a warm valley night)

I'm back in time

She was just a girl I knew from school teaching me a thing or two  
Then away we'd go in the midnight grove  
Make me feel good tonight I wanna feel good tonight  
Make me feel good tonight on a warm valley night

It gets so hot in the day  
And you almost melt away  
Can't wait 'till the sun goes down

Then life is good  
(on a warm valley night )

And there we stood  
(on a warm valley night)
